To Whom it May Concern:

I am writing in recommendation of Juan Ramirez Cruz. I was his Math II and Math III Accelerated teacher at Coalinga High School. In the time that I have known Juan, he has made a positive and unique impression.

Within the classroom, I have witnessed his perseverance. Even when he is unsure with how to proceed with a task at hand, he uses his resources. He can collaborate with others at an exceptional level. He works well with others to ensure his understanding or to help others who may need additional support. His GPA is evidence of his dedication as he holds a 3.8 GPA.

In addition to his dedication academically, Juan has devoted many hours to volunteer work. Juan has volunteered at various wrestling tournaments. He also took part as a volunteer for the Harris Boys and Girls Club. Juan spent many hours improving our school. He worked with our maintenance department with cleaning the campus, painting, and building various shelves.

Juan would be an asset to any organization or institution. If you have any questions feel free to email me at amoreno@chusd.org

Sincerely
